

PRINCIPAL'S MESSAGE

Shaping young minds is one of the most challenging as well as interesting tasks in the present times. Just a glimpse of the bright, sparkling eyes is enough to bring a smile to our faces. We wonder how we can help these young flowers bloom in this world, without ever robbing them of their smiles, and we constantly seek newer ways to ensure it. Each child's future follows a different path and momentum. To succeed in the 21st century, we need to provide them with a sound educational platform that prepares them to be creative, compassionate and innovative adults. We as responsible educators take upon ourselves to create a stimulating environment where young minds are nurtured to blossom into intelligent, mature and enriched youth. Knowledge being the most democratic source of power, we must impart quality education to our young scholars who are key agents in the process of development and peace. We at Don Bosco School Kharagpur are committed towards preparing skilled, knowledgeable, holistically developed personalities who continue to inspire our future generations and make us proud by their commendable contribution to the society and nation. We aspire to cultivate a life-long passion for learning so that our young minds step into a world which would be shaped by their dreams and contributions, and bettered by their zeal and integrity. With a proactive parent community, we endeavor to achieve a shared goal of helping our students achieve their academic potential in a school environment that is respectful, motivating, and challenging.

We are a school with a difference! We value individualism, creativity and innovation and strive to nurture them in our students. We firmly believe that Education is a partnership between the parents and the institution with a common goal and vision – to impart the best to our children in the most favorable and welcoming ambience. It is not just about enrolling the child in the best school or system, but an inherent involvement at every stage of their development in school.

Our students are at the core of all that we do. Every decision we make is aimed at improving outcomes for students. As the greatest philosopher of all times Aristotle said “Excellence is not an act, but a habit”, it is our sincere hope that we foster such a habit in our campus, and see young children grow to their complete potential. Come, join us in our quest to develop learners who are successful and confident and who can contribute in significant ways to a complex and challenging future!
