## TEACHER SAINTFRIEND TEACHER

### **A TRADITION OF**

## **PRIDE**

Saint John Bosco, known as Don Bosco, was an Italian Roman Catholic priest, Educator, and writer of the 19th century, who dedicated his life to the betterment of education. He was born on August 16, 1815, in a peasant family in a little village of Becchi, about twenty kilometres from Turin, Italy. His father Francis Bosco died only two years after John's birth. His mother Margaret Occiena Bosco had a tough time raising three boys by herself.

To complete his education, John worked in the family farm and studied in his spare time. To pay for his education and survival he worked as a servant, teacher and did all types of odd jobs. In due course, John entered the seminary, became a priest on June 5, 1841, and was known as Don Bosco 'Father Bosco'.

TEACHER

Don Bosco called his method of education
'The Preventive System' based on REASON,
RELIGION and KINDNESS. The system consists in
disposing the pupils to obey not from fear or compulsion,
but from persuasion. He told his disciples that education
was to be based on love, on selfless service for the mental,
emotional, moral, and spiritual growth of the pupils.
Friendship was the key to his success. "It is not sufficient to
love the young, they must know that they are loved."

Even after 125 years after his death, his followers continue his work with the same eagerness and faithfulness.

The one principle that still guides them is the same principle that guided Don Bosco:

"You are young, is enough to make me love you very much."

All Bosconians will imbibe the values of St. Don Bosco. The school will provide the best opportunities to succeed through combined strength of individual will power, unshakeable integrity and self-belief, coupled with exposure to a cosmopolitan environment that promotes and encourage holistic learning and personality development.

Bosconians, no matter how constrained his or her circumstances are, encouraged to develop a philanthropic nature and learn to look at and support humanity without divisive barriers of caste, creed or nationality.

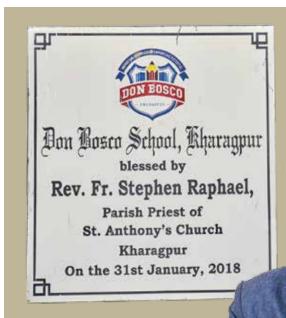

Growth & discipline are inseparable, both coexist and remains vibrant. We aim to provide such a learning environment that every child is able to achieve education, through comprehensive curriculum based on a strong foundation of Indian tradition, culture and values.

We are committed to prepare each Bosconian as an independent and confident individual, capable of coping with the challenges of tomorrow. Shaping and nurturing each one of them into global citizens, strongly aware of their responsibilities towards nature and environment, the world and humanity and of the development and well-being of their fellow human beings.

We ensure that each child gets ample facilities and opportunities to develop their clear thinking, become an open-minded human being with strong physique, resolute will power and wisdom that leads to the path of prosperity of the nation in particular and of the world as a whole.
